

INVITATION TO THE BREMEN MASS SPECTROMETRY SEMINAR

The Bremen Mass Spectrometry Seminar cordially invites you to a lecture by

THORSTEN DITTMAR

Professor

University of Oldenburg

The molecular universe of seawater from an ultrahigh-resolution mass spectrometry (FT-ICR-MS) perspective

on Wednesday, May 21st, 2014, at 16:00

at Max Planck Institute for Marine Microbiology (new lecture hall)

Thorsten Dittmar's focus is on characterization of dissolved organic matter in seawater at the molecular level by using tools of analytical chemistry.

There will be a small reception with wine and cheese after the seminar (sponsored by Thermo Fisher Scientific and Bruker Daltonics).

The Bremen Mass Spectrometry Seminar hosts monthly talks on mass spectrometry technology and applications. For more information about the Seminar and upcoming speakers, please visit <http://www.bremen-ms-seminar.de/>
